

Notes for Contributors

All manuscripts should be addressed to the Editorial Office of *The African Journal of Medicine and Medical Sciences*, PIMRAT, College of Medicine, University College Hospital, Ibadan, Nigeria.

Papers for this Journal are accepted subject to the understanding that no substantial part has been or will be published elsewhere. This does not refer to abstracts of oral communications which are printed in proceedings of societies or symposia.

Authors should send two complete copies of the text, tables and photographs and retain one copy for reference. The Editor does not accept responsibility for damage or loss of papers submitted.

Manuscripts should be submitted double spaced and typewritten with ample margins.

On a single separate sheet there must be the following: (a) title, (b) author's names and initials, (c) department/s in which the work was done, (d) the name and address of the author to whom correspondence should be addressed, (e) author's present address if different from the departments in which the work was done, (f) if paper was presented at a meeting, please indicate name of organization, city, month and year.

Titles should be short, specific and clear. Omit phrases such as 'The use of', 'Observations on'. Authors should provide a shorter running title. Manuscripts must be accompanied by a summary not exceeding 200 words and there should be a translation of the summary into French if the article is written in English and vice versa.

Photographs must be submitted as glossy prints, untrimmed and unmounted. Number each with pencil lightly on the back and indicate top. The numbers of photographs and illustrations should be kept to a minimum.

Publication of colour transparencies submitted must be paid for by the author at the time of acceptance.

All details on charts and graphs must be clearly legible when reduced to the size used in this Journal.

The onus of preparing a paper in a suitable form for publication rests with the author. The need for editorial revision of badly prepared typescripts or diagrams may lead either to rejection of the article or delay in publication.

This Journal has agreed to accept manuscripts prepared in accordance with the Vancouver style and the Editor will consider any paper conforming to that style.

References should be numbered in the order in which they are cited in the text. At the end of the article the references should be listed as numbered in the text. Each reference should give the names and initials of all authors (unless there are more than six, when only the first three should be given, followed by *et al.*). The authors' names should be followed by the title of the article, the journal title (abbreviated according to the style of *Index Medicus*), the year of publication, the volume number and the first and last page numbers. Titles of books should be followed by the publisher, place of publication, and year. Examples of format for references are as follows:

Edington JM, Osunkoya BD, Smith JA. Immunopathology of Burkitt's lymphoma. *West Afr Med J* 1986;85:76-87.

Brown A. Primary Health Care and the Medical Curriculum. Edinburgh: Universities Press, 1977.

Lewis A. Primary liver cell carcinoma. In: Ajose A, Odeku EL, eds. *Priorities in Health Planning*. Ibadan: University Press, 1983: 110-7.

Reference to tables should be in Arabic numerals, e.g. Table 3, and tables should include titles which make their meaning clear without reference to text. Tables should be typed separately from the text.

Proof corrections are expensive and correction of proofs other than printers' errors should be kept to a minimum. **Authors must return proof corrections within 3 days of receipt. Failure to do this will result in the paper being published with the Editor's corrections only.**

Papers accepted for publication remain the copyright of the *Journal*.

Twenty-five offprints are supplied free and additional copies may be ordered on the printed card which will be sent to the author with the proofs.
